

You 16:02

Good afternoon/day all

DESDERI WENGAA 16:02

Greetings to you all, thank you

Goodlucky August 16:03

Good evening. Mercy Kindly check your connection

You 16:04

@Mercy Odhiambo your connection is not good

DESDERI WENGAA 16:04

Mercy you are breaking allot

Ishengoma Josephat 16:09

please recheck your connection

DESDERI WENGAA 16:09

Mercy, your fully breaking up and hard to catch up

Chan ATEM 16:10

We were having a hard time picking what she was saying but please proceed Sir.

Mercy Odhiambo 16:12

My apologies for the internet, we shall share the introduction alongside the presentation to your emails

Mercy Odhiambo 16:12

Please share your questions on the chat

You 16:33

<https://monitor.digitalhealthmonitor.org/map>

Mercy Odhiambo 16:35

Question: Will Tanzania undergo the legislative process to enact the model law for Health Data Governance?

Mercy Odhiambo 16:44

Reminder to share your questions in the chat, thank you

Ivan Antonio 16:46

As Tanzania expands its digital health ecosystem and interoperability initiatives, how is the country balancing international technology partnerships with the need to guarantee national health data sovereignty, ownership, and local control of sensitive patient information?

Ivan Antonio 16:48 (Edited)

What governance mechanisms, legal frameworks, and cybersecurity strategies has Tanzania

implemented to ensure that health data remains secure, compliant, and accessible for national decision-making without creating dependency on external platforms or foreign cloud infrastructures?

Ivan Antonio - From Angola

<https://www.linkedin.com/in/ivan-ant%C3%B3nio-20397b58>

Chan ATEM 16:51

Mercy we still have challenges hearing you.

Victor Chengula 16:59

In line with data sovereignty, where does the health sector store their massive operational data? Has the use of AI already begun in Tanzania's health sector?

ROBERT DELLARUH 17:01

At what point does the risk of re-identification outweigh the utility of sharing the data? Is "perfect" privacy even possible in a world of linked data?

What are the experiences from Tanzania...?

Thanks,

Ocitti Robert Benson - South Sudan

Alphaxad Waluse 17:07 (Edited)

Do we have a national plan or strategies for the use of the datasets we have to train the AI models for the national benefit probably in collaboration with international partners.

Ivan Antonio 17:05

Many thanks for the clarification.

Ishengoma Josephat 17:09

To what extent the PDPC has been able to cooperate with stakeholders in ensuring that the laws that are enacted are collaborative and easy to implement?

Alphaxad Waluse 17:13

Thanks for the clarification.

Ishengoma Josephat 17:14

We will also be grateful to get those slides

Goodlucky August 17:15

For anyone looking for data centre hosting services, please feel free to contact me at goodlucky.uisso@stellar-ix.co.tz.

Benson Ncube 17:18

What is the uptake of the digital health services in the region?

You 17:21

Thank you all for joining this session, your questions and comments.
